### SECTION I GENERAL

**1. Authorization.** This table is in accordance with AR 1-75/OPNAV INST 4900.31D/AFR 400-45, AR 310-34, AR 310-49 and AR 570-2 and together with documents listed in paragraph 3, is the authority for the designated Department of State officials to requisition and issue, in accordance with pertinent State Department or Department of the Navy directives, all items of equipment listed herein unless otherwise indicated.

**2. Application.** *a.* Items of equipment listed herein are authorized for the operation of the Joint United States Military Advisory Group to the Republic of the Philippines. The mission of the Group is to advise the Armed Forces of the Republic of the Philippines, to program for, and turn over to, the Armed Forces of the Republic of the Philippines military assistance program supplies materiel, and equipment; to observe end item use of all supplies, materiel, and equipment furnished under the Military Assistance Program; to assist in and observe training of the Armed Forces of the Republic of the Philippines and furnish such advice as may be requested; to program for the attendance of Filipino students at United States Military Service Schools.

*b.* Procurement, issue, substitution, and retention of items of equipment listed herein will be accomplished in accordance with AR 1-75/OPNAVINST 4900.31D/AFR 400-45.

*c.* Allowances listed in section II herein are not duplicated by authorizations listed in paragraph 3.

*d.* Trophies and articles of historical nature are not listed in this table, but may be retained until unserviceable, if on hand.

*e.* An end item or set, kit, or outfit included in this table is the authority for acquisition of applica-

ble repair parts, accessories, special tools, and components thereof which are shown in applicable manuals/listings/bulletins, commensurate with the assigned responsibilities for maintenance and the density of the authorized items.

*f.* Items of equipment authorized herein, except commercial non-type classified items and developmental items, are the latest adopted type articles. Priorities of issue and issue of substitute items pending availability of later models, or in lieu thereof until exhausted, are established and authorized by current supply directives.

*g.* Issues made against authorizations and allowances contained in this JTA will be chargeable to the appropriate military functions appropriations with the exceptions listed in paragraph 4-2 of AR 1-75/OPNAVINST 4900.31D/AFR 400-45.

*h.* Items contained in this JTA are authorized only to the extent that these same, or comparable items are not furnished by the Department of State or the host government.

*i.* Unless otherwise restricted by orders or regulations, the allowances listed herein may be decreased or deleted at the request and discretion of the Commander. The utilization of authorizations established herein is a command function; the Commander is not required to request to the full extent of authorization allowances. The retention of authorized items and the enforcement of supply economy are likewise command functions to be exercised by the Commander of the Group authorized equipment by this table.

#### NOTES

1. M16 rifles were issued to replace carbines.
2. Current allowance is for office space and quarters bedroom space only. Present buildings are tin roof, wood frame, 20 to 30 years old non-insulated quarters and offices requiring additional capacity per unit over the standard per square foot. Due to the humidity and hot torpical climate, it is necessary and desirable to authorize air conditioners for use in all living space in family quarters, BEQ and BOQ and enclosed recreational facilities. Total requirements of 390 will allow for a 7% overage which will be adequate for a maintenance float.
3. Frequently briefings are required to be given by more than one service Division simultaneously. These briefings are areas more than one mile from each other and justifies the minimum need for two 35MM projectors.
4. By utilizing two projectors an entire movie can be shown without a break to switch reels. If one projector breaks down a backup is available. Two projectors are on hand for use.
5. US Commissary is not available in the Manila area and it is necessary to provide all quarters with two refrigerators. Necessary refrigerators are on hand to implement this increase.
6. Location of JUSMAG facilities is in the Philippine yearly (annual) typhoon belt area. In addition, local Manila Electric Company expansion plans have not matched electric growth requirements of the greater Manila area. Brown outs and electric black outs caused by overload of present commercial facilities justifies use of emergency power throughout the year. To prevent freezer food loss in the Consolidated Open Mess facilities and to provide adequate power for signal communication equipment subject to change by local power fluctuations during peak load periods.
7. Total requirements on the number of automobile sedan 4 door light 4 x 2 has changed from 30 to 25. This is due to a decrease in personnel.
8. Total requirements on the number of bus motor: 23-37 passengers has changed from 6 to 4. This is due to a decrease in personnel.
